

INTRODUCTION

Undergraduate education at Southern University of Science and Technology (SUSTech) aims to meet the most diverse intellectual interests of students, to develop their personal academic goals, and to help them reach their best. The integration of general education and education by subjects is the feature of SUSTech undergraduate education. Both general education and content education are vital part of an undergraduate degree. Students start their undergraduate study from general education with courses across the spectrum of sciences and liberal arts that provide opportunities for students to explore their interests through courses and help students preparing themselves for the major declaration and their development of critical thinking, communication, and understanding of culture, values and science for the future. To fulfill the degree award requirements at SUSTech, students need to complete the following modules of study.

- Four modules for General Education Required: GE Science Module, Physical Education Module, Chinese Language and Culture Module, and English Language Module;
- Four modules for General Education Electives: Humanities Module, Social Sciences Module, and Music & Arts Module, Elective Science Module;
- Major Required Modules: Major Foundational Courses, Major Core Courses;
- Major Elective Module;
- Internship, Research Projects, and Graduation Design and Thesis.

Curriculum and Course Structure for International Students 2021

#See the Specific Program Curriculum for Details

General Education Requirement: Required Courses

There are 4 required modules that students need to complete in the general education (GE) section, i.e. GE Science Module (The number of the required credits depends on the levels of each course stated in the specific program curriculum), Physical Education Module (4 credits), Chinese Language and Culture Module (16 credits), and English Language Module (The number of the required credits depends on the levels assigned based on the placement test).

Table 1 Required GE Module: Science Foundation Courses

Category	Level	Course Code	Course Name	Credit	Lab Credits	Hours/week	Term	Instruction Language	Prerequisite	Dept

GE331	Physical Education V	0	2	Fall	C	NA	
GE332	Physical Education VI	0	2	Spr	C	NA	
Total		4	12				

GE131、GE132、GE231、GE232、GE331、GE332 are required PE courses offered by Center For Physical Education. Students are required to select a specific sport program each semester. Student who meets the exemption conditions stated in "SUSTech Physical Education Course Exemption Regulation" can apply for exemption from GE331 and GE332.

Table 3 Required GE Module: Chinese Languages & Culture

Course Code	Course Name	Credit	Hours/week	Term	Language Instruction	Prerequisite	Dept.
CLE008	Elementary Chinese I	2	4	1/Fall	B	NA	CLE

Table 4 Required GE Module: List of English Language Courses

Course Code	Course Name	Credit	Hours/week	Language	Instruction	Prerequisite	Notes
CLE021	SUSTech English I	4	4	E	E	NA	Required
CLE022	SUSTech English II	4	4	E	E	CLE021	
CLE023	SUSTech English III	4	4	E	E	CLE022	
CLE030	English for Academic Purposes	2	2	E	E	CLE023	
/	(at least one 2-credit CLE elective course)	2	2	E	E	CLE030	Level A & B Required

All students are required to undertake the English Placement Test before selecting courses, based on which students will be assigned to A/B/C 3 levels. Students at different levels will start with the specified SUSTech English (SE) courses and finish the required module after completing CLE030 English for Academic Purposes.

Level A: Starts with SUSTech English III;

Level B: Starts with SUSTech English II;

Level C: Starts with SUSTech English I.

Table 5 Requirement for English Language Courses

Level	Required English Courses					Total Credits for English Courses
	SUSTech English I	SUSTech English II	SUSTech English III	English for Academic Purposes	CLE Electives	
Level A			4 credits	2 credits	2 credits	8
Level B		4 credits	4 credits	2 credits	2 credits	12
Level C	4 credits	4 credits	4 credits	2 credits	Not required	14

After completing the required module of English compulsory courses, students in A and B levels are required to continue their foreign language learning by taking at least one 2-credit CLE elective course. CLE elective courses cover a wide range from cross-cultural communication,

STEM related English courses, language and thinking series, English for specific purposes, and second foreign language courses.

Students who have completed an English language course for their specific major may submit a written application for the accreditation to fulfill the CLE elective requirement. Once the application is approved, those credits will be identified as the CLE elective ones required in the GE English Module and cannot be used to fulfill the credit requirement of other course types.

Table 6 GE Electives Offered by CLE

Course Code	Course Name	Credits	Practicum Credits	Hours /Week	Prerequisite	Dept.
GE2229	Public Speaking	2	0	2	CLE030	CLE

CLE051	Elementary French	2	0	2		CLE
CLE052	Podcasting: English Listening and Speaking Through Culture	2	0	2	/	CLE

CLE053	English for Professional Engineering Skills: Language in Project Design, Management and Communication	2	0	2	CLE030	CLE
CLE054	Upper Elementary French	2	0	2	1. IELTS (7.0) or TOEFL (100) and above scores; 2. Completion of the elementary level courses or equivalent.	CLE
CLE055	Upper Elementary Spanish	2	0	2		CLE
CLE056	Upper Elementary Japanese	2	0	2		CLE
CLE057	Upper Elementary German	2	0	2		CLE
CLE060	English for Fluency	2	0	2	/	CLE
CLE061	Study Abroad Language and Culture Development	2	0	2	/	CLE

Notes:

1. This course list will be extended with new courses developed.
2. All English courses are instructed in English language.
3. Second foreign language courses are instructed in the target language or bilingually.
4. Most CLE elective courses are offered in Spring and Summer semesters.
5. Test preparation courses are offered in every semester.
6. Second foreign language courses are offered in Spring and Fall semesters.

General Education Requirement: Elective Courses

General Education Elective Courses include four modules: Humanities Module, Social Sciences Module, Arts Module, Elective Science Module. Students are required to complete 4 credits for the Humanities Module and Social Sciences Module respectively, and 2 credits for the Music and Art Module. The requirements for Elective Science Module are specified in the curriculum of each program. Please check the details in the specified curriculum.

I. Humanities Module

Humanities Learning Objectives and Outcomes: 1) Students will appreciate a wide range of Chinese and Western classic literary works and be able to interpret and analyze the genre, theme, historical background critically from a modern perspective. 2) Students will gain solid knowledge in Chinese academic writing and develop comprehension in language maneuverability. Students will improve their communication skills, as global citizens and leaders. 3) Students will be exposed to a wide range of humanities disciplines in their historical contexts and establish cultural foundation. 4) Philosophy of Science and Ethics of Science and Technology. Students are expected to take advantage of this knowledge to think and solve problems creatively.

<p>Notes:</p> <ol style="list-style-type: none"> 1. The minimum requirement for this module is 4 credits. 2. This course list will extend with new courses developed. 3. The instruction languages of these courses are bilingual or English. Information about the available courses and the instruction language will be announced before the course selection session. 						

II. Social Sciences Module

Courses in the Social Sciences Module aim to forester students with the following abilities: 1) critical thinking in observing and analyzing social phenomena; 2) grasp of methods and skills in doing social research; 3) understanding of social and cultural diversity, and theories in social sciences. Students are required to complete the learning of at least 4 credits in this module.

Table 8 GE Electives: Social Sciences Module

Notes:

1. The minimum requirement for this module is 4 credits.
2. This course list will extend with new courses developed.
3. The instruction languages of these courses are bilingual or English. Information about the available courses and the instruction language will be announced before the course selection session.

III. Music and Arts Module

Art courses cultivate students' abilities in the following aspects: 1) Cultural understanding, aesthetic perception, artistic expression, creative practice and other core literacy; 2) performance learning and artistic expression in music, drama, fine arts, dance and other arts; 3) inductive analysis of traditional culture and modern classic works of art. Students should take art courses with no less than 2 credits and obtain credits to meet the graduation requirements.
