

课程简介

MED103. 医学史（2）

理论课，2 学分，2 学时/每周。

本课程主要以医学的发展史为主线，介绍不同类型的医学的诞生背景和发展进程，讲述了中医的人文思想及具体的治疗手段，陈述了与医学相关的学科的发展史，表述了医学生必备的医学素养及相应的培养手段。通过医学史的学习，使学生了解医学的发展规律，掌握正确的方法论，扩大知识面，培养学生观察、分析、综合的工作能力。

MED103.History of Medical (2)

Lecture, 2 credits, 2 hours per week. This course mainly takes the history of medical development as the main line, introduces the background and development process of different types of medicine, tells about the humanistic thoughts and specific treatment methods of Chinese medicine, and states the history of development of disciplines related to medicine. This paper describes the necessary medical literacy of medical students and the corresponding training methods. Through the study of medical history, students are enabled to understand the development laws of medicine, master correct methodologies, expand knowledge, and cultivate students' ability to observe, analyze, and comprehensively work.
