

课程大纲

COURSE SYLLABUS

1.	课程代码/名称 Course Code/Title	MSE5016 胶体与界面系统 Colloidal & Interfacial Systems																						
2.	课程性质 Compulsory/Elective	专业选修课																						
3.	课程学分/学时 Course Credit/Hours	3/48																						
4.	授课语言 Teaching Language	英文/ English																						
5.	授课教师 Instructor(s)	何振 助理教授																						
6.	是否面向本科生开放 Open to undergraduates or not	否																						
7.	先修要求 Pre-requisites	无																						
8.	教学目标 Course Objectives	<p>This course will cover fundamental principles related to interactions, dynamics, and structure in colloidal and interfacial systems. Concepts covered include Fluid Interfaces and Capillarity, Brownian motion, diffusion, sedimentation, electrophoresis, colloidal and surface forces, polymeric forces, aggregation, deposition, and experimental methods. Modern topics related to colloids in nano- science and technology will be discussed throughout the course with frequent references to recent literature. Students with research topics in colloids, polymers, biomaterials, nanoscience and nanotechnology will be benefited from the lectures of this course.</p>																						
9.	教学方法 Teaching Methods	<p>Lectures of this course are chosen carefully with the aim of helping students with research topics in colloids, polymers, biomaterials, and nanomaterials. Both class topics and recent advances will be reviewed. Students will actively participate with literature reviews, computer projects, and topic presentations.</p>																						
10.	教学内容 Course Contents	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="text-align: center;">Section 1</td> <td>Introduction</td> </tr> <tr> <td style="text-align: center;">Section 2</td> <td>Preparation of colloids and nanoparticles</td> </tr> <tr> <td style="text-align: center;">Section 3</td> <td>Fluid Interfaces and Capillarity</td> </tr> <tr> <td style="text-align: center;">Section 4</td> <td>Brownian Motion</td> </tr> <tr> <td style="text-align: center;">Section 5</td> <td>Diffusion</td> </tr> <tr> <td style="text-align: center;">Section 6</td> <td>Sedimentation</td> </tr> <tr> <td style="text-align: center;">Section 7</td> <td>Dispersion Forces</td> </tr> <tr> <td style="text-align: center;">Section 8</td> <td>Electrostatic Forces</td> </tr> <tr> <td style="text-align: center;">Section 9</td> <td>Polymer Forces</td> </tr> <tr> <td style="text-align: center;">Section 10</td> <td>Mid-term Presentation</td> </tr> <tr> <td style="text-align: center;">Section 11</td> <td>Mid-term Presentation</td> </tr> </table>	Section 1	Introduction	Section 2	Preparation of colloids and nanoparticles	Section 3	Fluid Interfaces and Capillarity	Section 4	Brownian Motion	Section 5	Diffusion	Section 6	Sedimentation	Section 7	Dispersion Forces	Section 8	Electrostatic Forces	Section 9	Polymer Forces	Section 10	Mid-term Presentation	Section 11	Mid-term Presentation
Section 1	Introduction																							
Section 2	Preparation of colloids and nanoparticles																							
Section 3	Fluid Interfaces and Capillarity																							
Section 4	Brownian Motion																							
Section 5	Diffusion																							
Section 6	Sedimentation																							
Section 7	Dispersion Forces																							
Section 8	Electrostatic Forces																							
Section 9	Polymer Forces																							
Section 10	Mid-term Presentation																							
Section 11	Mid-term Presentation																							

	Section 12	Colloidal dispersion system
	Section 13	Assembling
	Section 14	Surfactant
	Section 15	Emulsions and Foams
	Section 16	Gel
	Section 17	Final exam
11.	课程考核 Course Assessment	
	Quiz/attendance	20%
	Homework	20%
	Midterm Presentation	20%
	Final Project	40%
12.	教材及其它参考资料 Textbook and Supplementary Readings	
	Textbook: An Introduction to Interfaces & Colloids. John C. Berg, 2009 Colloidal Dispersions. Russel, W.B., Saville, D.A., and Schowalter, W.R., 1989 Reference books: Principles of Colloid & Surface Chemistry. Hiemenz, P.C., Rajagopalan, R., 3rd ed. 1997. Foundations of Colloid Science. Hunter, R.J., 2nd ed. 2001. Intermolecular and Surface Forces. Israelachvili, J.N., 2nd ed. 1992
